

Pre-breeding strategies for obtaining new resilient and added value berries

Public evaluation report Open Call #4
Development of methodological tool kits for sensorial quality assessment of berry genetic resources

Results of Open Call #4 for recipients of financial support

Project acronym: BreedingValue

Project grant agreement number: 101000747

Project full name: Pre-breeding strategies for obtaining new resilient and added value berries

The BreedingValue project, co-funded from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101000747, launched an Open Call (Open Call#4: Development of methodological tool kits for sensorial quality assessment of berry genetic resources) for recipients of financial support.

The call closed on 31.10.2021.

A total of 7 proposals were received for this call. 7 proposals will receive funding for a total amount of 95.200,00 EUR.

The evaluation and selection has been completed. All proposers have been informed about the evaluation results for their proposal for financial support.

Call information

The call was published on BreedingValue project website (<https://breedingvalue.eu/open-calls/open-call-4>) and on the Horizon 2020 Participants Portal (<https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/competitive-calls>) on 31.07.2021.

Response to the Open Call in detail
